First Aid Measures

• **Splashes to the Eyes**
  • For mucous membrane exposure, flush the affected area for 15 minutes, using an eyewash.

• **Treatment for injuries as a result of exposure to biological agents**
  • **Splashes to the body or hands:**
  • Wash the affected area with antiseptic soap and plenty of water for 15 minutes.
  • Use the emergency shower, in case of splashes to the body.

• **Needle Injury**
  • In case of accidental puncture or piercing by needles, wash the affected area with antiseptic soap and warm water, while pressing the area of injury to draw blood out, for 15 minutes.
  • Disinfect with iodine solution.

• Call Occupational Medicine.
• Call safety unit to report exposure – 640-6555 or 640-9966
